

Read Me

To set up the design prototype on your browser window,

- Unzip fitterMe folder.
- Look for “home.html” file and double-click on it to launch the prototype.
- Suggested browser to use: Google Chrome version 63.0.3239.84 or newer
- Use mouse to move over area of the screen.
- At some points, you may have to click more than once for a button to work or save data.
-

Notes about the prototype

Prototype was designed in Axure. Only copyrighted images are used in the design and listed in the references section. On “Pages” page, some texts on buttons for each section may go outside the buttons due to the browser. Prototype has been tested on Laptop view and design format works as its expected. But some texts mentioned above stay outside the buttons when prototype was tested on desktop computer. Depending on the size of the monitor, there may be format issues on some texts.

Enter your personal information: Both first and last names must be entered. Valid information for “Date of Birth” must be entered. DD must be between 1 and 31, MM must be between 1 and 12 and YYYY must be between 2005 and 1917 (age between 12 and 100). Appropriate gender must be chosen. Email must be entered. For height, ft must be between 3 and 8, and inches must be between 0 and 12. Weight must be between 90 lbs and 500 lbs. If there is any information missing or invalid, “Save” button won’t work and “Missing or invalid message” will display on top of the page. Forward button is enabled only after “Save” is successful.

Set goal: Appropriate value (between 90 and 500 lbs) for weight goal must be entered. One of the radio buttons must be chosen in both sections below. Otherwise, clicking on “Submit” will display an error.

Set Motivation: Default motivation photo will be displayed after clicking on “Your Goal” photo. Morning mantra is expected to be entered. Both motivation photo and morning mantra will be displayed in “My Profile” page. Motivation photo is only saved after clicking on “Save”.

Progress: This page is a main page where user can enter weekly weight on every Sunday and that weight will be updated in user’s profile. There are two default charts. One is for weekly weight loss shown percentage and the other graph for is weekly calorie track which can go backward (default charts).

Profile: This page will display the motivation photo, morning mantra, user’s names and other information about the user. User can also update locations at the bottom. Drop-down menus for updating locations is very limited for this design. At the bottom of the page, daily exercise goal and weekly mini goals are also displayed if user set those goals in appropriate sections.

Track food & Exercise: This page functionality doesn’t work as it is supposed to be in a working app. For this design, only default data will be displayed. User can track calorie in 3 different ways by naming each meal first, and then entering calorie amount, scanning barcode or browsing from drop-down menu and looking for the food item in a search box. User can also track calorie burned from doing exercise. At the bottom of the page, calculation of calorie balance with calorie consumed and calorie burned.

Healthy Recipes: This page will give user 4 weeks of meal recipes in advance. For now, there are only recipes for Sunday on week 1. In a working app, all the recipes will be entered. Recipes used for this prototype are referenced at the end of this document.

Overcome Obstacles: This page is designed to solve needs and obstacles of main personas.

Each section gives tips for user's weight gain behaviours. User can also set a goal for each category. These goals will be listed at the bottom of user's profile page.

Exercise: This page gives exercise tips for weight loss and user can also set a daily exercise goal which will be displayed in user's profile page.

Messages: This page will display user's messages shared between other fitterMe users.

Community: This page has local community and global community. In each community, there is a forum where fitterMe users can share their thoughts and ask questions. For this design, only default forum, default users and default user profile are available.

Educate Myself: This page provides information related to weight loss and health.
